Matilda Johnson, negress, 1239 Walnut st., stabbed to death. Isaac Hult, 406 N. Paulina st., held.

CLOTHING WORKERS' STRIKE SEEMS PROBABLE

A general strike of all the clothing workers that will tie up the entire clothing industry is expected very shortly as clothing makers believe this is the only method by which they can better their conditions.

Frank Rosenblum of the Amalgamated Clothing Workers of America declares that employes of Hirsch, Wickwire & Co. have brought to the office of the organization pay envelopes showing \$4 and \$5 as a whole week's earnings and that what is true of this firm is equally true of the others.

"The so-called welfare workers of the Manufacturers' ass'n are very busy trying to keep the workers away from the union and doing general spy work," Rosenblum declared, "but so far they have failed as the people pay little attention to them and often point them out to the union organizers so that they may know them.

"The organization has achieved a minor victory for the people of Fred Kaufman & Co. The wages of the collar makers were reduced there and when the people protested against the reduction two of them were discharged. The matter was taken up by the organization and a committee appointed with the result that the two men were reinstated and the price restored.

"The people are demanding a living wage, a 48-hour week and decent treatment, and unless the bosses heed these demands a general strike of the tailors in the city of Chicago seems inevitable."

The smallest penknife in the world is the handiwork of Dr. John H. Temple of Marshallton, Pa. The handle, made of gold, is three-sixteenths of an inch in length, and the blade is two-sixteenths of an inch long. Its weight is somewhat less than one-half grain.
